STATE OF ILLINOIS)
) SS
COUNTY OF GRUNDY)

PUBLIC HEARING

Hearing Officer Frank Halpin called to order the Public Hearing on the Grundy County Health Department Petition to add new text amendments to Sections 5-2-3 and 5-2-5 Permit Requirements and Private Sewage Disposal Systems at 5:15 P.M.. On roll call the following County Board Members were present Gill, Iverson, Joyce, Lutz, McKinney, Naretto, Neushwander, Pfaff, Poole, Redford, Rodosky, Severson, Steele, Almer, Dyer, P. Galloway and Halpin. Absent, County Board Member J.Galloway.

James Leonard, Director of Environmental Health for the Health Department explained the proposed text amendments petition. The language regarding expiration of permits which will fall in line with the State's requirement that they expire at the end of one year of application , on variances when full compliance of the document is impractical to existing conditions that a variance can be issued to stray from existing conditions. Also to remove the language on seepage trenches and to include effluent receiving trenches, to reduce the amount of effluent that will be discharged to the surface, to protect the groundwater and surface water of the county.

It is a common practice in Will County and is proposed for the State Code to be adopted later this year.

County Board Member Poole noted that the Grundy County Board of Health approved these changes unanimously. There being no further comments from the Board or the public, Hearing Officer Halpin asked for a motion to close the Public Hearing.

It was MOVED by County Board Member Almer and SECONDED by County Board Member Steele that the Public Hearing be closed at 5:20 P.M. MOTION CARRIED.

COUNTY BOARD MEETING

Proceedings, transactions and RESOLUTIONS had made and ordered of record of said Board in the County of Grundy and State of Illinois, on the Twelfth day of August in the year of our Lord Two Thousand Eight and the Independence of the United States, the Two Hundred and Thirty-second. .

Morris, Illinois

August 12, 2008

The meeting was called to order at 5:30 P.M. by County Board Chairman Halpin, followed by the Pledge of Allegiance to the Flag. On roll call, all County Board Members were present.

The minutes of the July 8, 2008 County Board Meeting were submitted to the Board. It was MOVED by County Board Member Steele and SECONDED by County P. Galloway that said minutes be approved as printed. MOTION CARRIED.

The Chairman announced the following changes to the prepared agenda: strike the following: VII. A. 4, B. 1. XI. D and place XI. C. On file.

MOTION: AMEND PREPARED AGENDA.

It was MOVED by County Board Member Poole and SECONDED by County Board Member Almer that the prepared agenda be amended. MOTION CARRIED.

Caroline Portlock, CEO and President of the Grundy County Chamber of Commerce and Industry distributed copies of the Community Resource Guide to Board Members. It has been sent to every home in the County and she thanked the municipalities, organizations and county departments that help in compiling the information. It highlights healthcare, education, municipal and county information for individuals wishing to locate to Grundy County. Maps are also included so that they would know what school district they are moving into.

Joel Link of Invenergy , the wind farm developers in LaSalle County, introduced himself and said he would be available if there were any question regarding the enterprise zone expansion.

County Board Member Iverson presented Dep. Lonnie Harvey with a certificate of appreciation. He is being deployed to Afghanistan for active duty as a Sgt. in the National Guard. Sheriff Marketti said he hoped that he would be back soon and safe asked the County Board and the people of Grundy County to keep him in their thoughts and prayers while he is gone.

ORDINANCE: CONDITIONAL USE - BED AND BREAKFAST - CASE 08-ZBA-11.

An ORDINANCE for a Conditional Use, Case 08-ZBA-11, to operate a Bed and Breakfast in an A-R District in Goodfarm Twp. was submitted to the Board. It was MOVED by County Board Member Joyce and SECONDED by County Board Member Almer that said ORDINANCE be adopted as submitted and made a matter of record. On roll call, said MOTION PREVAILED by the following vote: Ayes, County Board Members Gill, Iverson, Joyce, Lutz, McKinney, Naretto, Neushwander, Pfaff, Poole, Redford, Rodosky, Severson, Steele, Almer, Dyer, J. Galloway, P. Galloway and Halpin. Total Ayes, 18. Nays, none. Absent, none. MOTION CARRIED. Said ORDINANCE is as follows:

Ordinance No. 08-014 08-ZBA-11

STATE OF ILLINOIS)
)
COUNTY OF GRUNDY)

AMENDMENT TO THE GRUNDY COUNTY ZONING ORDINANCE

WHEREAS, a request has been filed for a Conditional Use to operate a Bed and Breakfast from their home in an A-R (Agriculture-Residential) District; and,

WHEREAS, the Grundy County Regional Planning Commission, Planning and Zoning Committee, and the Grundy Zoning Board of Appeals have positively recommended that the Conditional Use be approved.

THEREFORE, BE IT ORDAINED by the Grundy County Board, Grundy County, Illinois, that a Conditional Use to operate a Bed and Breakfast from the home of Charles and Linda Herman in an A-R (Agriculture-Residential) District is hereby approved with the following conditions:

1. Add more landscaping along drive and site.
2. Interior fence shall be removed within one year of County Board Approval.

THEREFORE, BE IT ORDAINED by the Grundy County Board, Grundy County, Illinois, that the following described property is hereby granted the aforementioned Conditional Use:

Lot 1 in Kendra Subdivision, a subdivision of part of the Southwest ¼ of Section 28, Township 31 North, Range 7 East of the Third Principal Meridian, as delineated on a Plat of Subdivision recorded May 19, 1993 in Plat Cabinet G, Slide No. 23, as

MOTION: BERNARDI SECURITIES - COUNTY BOND ISSUANCE.

It was MOVED by County Board Member Poole and SECONDED by County Board Member J. Galloway that the Board accept the recommendation of the Finance & Claims Committee to hire Bernardi Securities for their County Bond Issuance.

It was MOVED by County Board Member Almer and SECONDED by County Board Member Redford that the Board accept the results of the previous roll call. MOTION CARRIED.

RESOLUTION: SET COMPENSATION - JUDGES OF ELECTION.

A RESOLUTION to set the compensation paid to Judges of Election was submitted to the Board. It was MOVED by County Board Member Poole and SECONDED by County Board Member Steele that said RESOLUTION be adopted as submitted and made a matter of record. On roll call, said MOTION PREVAILED by the following vote: Ayes, County Board Members Gill, Iverson, Joyce, Lutz, McKinney, Naretto, Neushwander, Pfaff, Poole, Redford, Rodosky, Severson, Steele, Dyer, J. Galloway, P. Galloway and Halpin. Total Ayes, 17. Nays, none. Absent, none. County Board Member Almer abstained. Said RESOLUTION is as follows:

Resolution No. 08-073

RESOLUTION

Whereas, it is the duty of the Grundy County Board of Grundy County, Illinois to set the compensation paid to Judges of Election, and

Whereas, the following proposed compensation has been submitted for the Judges of Election:

Base Pay	$140.00
Schooling	40.00
Ballot Pickup	10.00
Ballot Return	25.00

Now, therefore, be it hereby resolved, that said compensation be adopted as submitted and become effective upon passage.

PASSED, ADOPTED and ENACTED this 12th day of August, 2008

Frank E. Halpin, Grundy County Board Chairman

ATTEST:

Lana J. Phillips, Grundy County Clerk

ORDINANCE: TEXT AMENDMENT - GRUNDY COUNTY CODE - BOARD OF HEALTH.

An ORDINANCE for a Text Amendment to the Grundy County Code by the Board of Health was submitted to the Board. It was MOVED by County Board Member Poole and SECONDED by County Board Member Gill that said ORDINANCE be adopted as submitted and made a matter of record. On roll call, said MOTION PREVAILED by the following vote: Ayes, County Board Members Gill, Iverson, Joyce, Lutz, McKinney, Naretto, Neushwander, Pfaff, Poole, Redford, Rodosky, Severson, Steele, Almer, Dyer, J. Galloway, P. Galloway and Halpin. Total Ayes, l8. Nays, none. Absent, none. MOTION CARRIED. Said ORDINANCE is as follows:

Ordinance No 08-015

STATE OF ILLINOIS)
)
COUNTY OF GRUNDY)

Not for Records
For Information Only

TEXT AMENDMENT TO THE GRUNDY COUNTY CODE

WHEREAS, in the interest of public health, and to protect the ground and surface waters within Grundy County, a request has been made for a Text Amendment to the Grundy County Code, and

WHEREAS, the Grundy County Board of Health, after reviewing reports submitted by the Grundy County Health Department, has recommended approval of the Amendment:

5-2-1: COMPLIANCE WITH PROVISIONS:

No person shall occupy, lease or permit the occupancy of any building or structure which does not comply with the provisions of this chapter. (Ord., 5-10-1994)

5-2-2: WATER AND SEWER SYSTEMS REQUIRED:

A. Residences: Every building occupied as a dwelling shall have a safe, uncontaminated water supply sufficient for the drinking, bathing, washing, and proper sanitation of all occupants; and shall also have a sewage system as provided herein, approved by the county health department. Home additions will require an increase in size of the sewage system to meet county requirements only when the number of sleeping areas in the home have been increased. Kitchen or bath additions will not require increases in the size of the sewage systems unless the number of sleeping areas in the home is increased. The existing size of the septic system may be approved by the health department if it is reasonably close to the size of the sewage system required in this chapter. In order to ensure code compliance, installation and modification of wells and septic systems, where applicable, shall be made and inspected prior to issuance of county building permits for mobile homes, room additions, and swimming pools.

B. Businesses: Every building where people are employed shall have access to both a safe, uncontaminated water supply sufficient for drinking for all employees and a sewage disposal system as provided herein, approved by the county health department. (Ord., 5-10-1994)

5-2-3: PERMIT REQUIREMENTS:

A. Permit Required:

1. No water well, private water supply, or private sewage disposal system shall be constructed or altered unless a permit shall first have been obtained from the county health department.

2. A permit must be obtained from the state environmental protection agency for a septic system designed to accommodate more than fifteen (15) persons if the effluent is discharged to the surface.

B. Application For Permit:

1. Generally: The permit application shall contain plans, specifications, lot layout and such further information or documents as the county health department or other lawful authority may require to ensure compliance with the requirements set forth herein. False information shall be deemed a violation of this chapter.

2. Septic System: Each septic system application shall be accompanied by three (3) copies of a plat drawn to scale and fully dimensioned in which the following information is shown:

a. Location of all wells, septic tanks, subsurface tile systems, grease traps, privy vaults, sewers, or other sewage disposal facilities on the subject and adjacent lots within one hundred fifty feet (150') of the installations proposed. Vacant property and streets shall be indicated.

b. Locations and dimensions of all proposed buildings and driveways.

c. Elevations as follows may be required by the health department prior to permit issuance:

(1) Top of foundation.

(2) Sewer invert at foundation.

(3) Sewer invert at tank inlet.

(4) Sewer invert at tank outlet.

(5) Sewer invert at distribution box.

(6) Sewer invert at end of header line.

(7) Sewer invert at end of each lateral.

(8) Sufficient ground elevation to indicate one foot (1') contour intervals.

d. All elevations shall be related to a convenient benchmark which shall be specified.

e. Locations of seepage test holes shall be shown and correlated with test hole numbers on the seepage test chart.

f. High water elevation of nearest ditch, creek, swamp or open waterways, except roadside ditches, shall be specified on septic system plans along with the distance from same to subject lot.

g. Location of future buildings, especially garages, shall be indicated.

Not for Records
For Information Only

h. Plans for buildings other than residences shall include location of parking areas required by the county zoning ordinance.

i. Any septic field line should be ten feet (10') from any tree.

C. Approval Of Application; Issuance Of Permit: A septic system and/or well permit application (unless a municipal system is available) must be approved before a permit may be issued.

D. Posting Of Permit: Permits shall be posted at the location of the water well, water supply, or sewage disposal system construction or alteration, or on the building which will be serviced by said water well, water supply, or sewage disposal system.

E. Revocation Or Suspension Of Permit: The county health department shall have the authority to revoke and suspend permits when they were issued in error, or where the provisions of this chapter are violated. The reason for the revocation or suspension of a permit shall be posted in writing at the site or mailed to the applicant's address provided in the permit application. (Ord., 5-10-1994)

F. Expiration of Permit: All permits shall expire after one year from the date of issuance. Written requests for extensions shall be directed to the Environmental Health Director of the health department prior to the date of expiration. The health department shall have the authority to extend or deny extension of expiration dates.

G. Variances: when full compliance of this document is impractical due to existing conditions of a property, a variance from these provisions may be requested by the owner. Variance requests shall be directed to the Environmental Health Director of the health department. Variances shall be submitted in writing.

5-2-4: WATER WELLS [81] :

A. Well Site:

1. Drainage: The well site shall have good surface drainage and, if possible, be higher than surrounding sources of pollution such as privies, cesspools, septic tanks and sewers.

2. Location:

a. No well shall be located within ten feet (10') of the edge of any public road or utility or drainage easement when an alternate location is practical.

b. When a well must be located adjacent to a building, it shall be so located that the centerline of the well extended vertically will clear any projection from the building by not less than five feet (5'). This distance may be altered if the type of well allows it.

3. Number Of Residences Per Well: No more than four (4) single-family residences constructed after the effective date hereof may be served by a single well.

B. Distances From Sources Of Pollution:

1. Minimum distance from wells or suction lines to sources of pollution shall comply with those distances listed in section 920.50 of the Illinois water well construction code [82] . and section 890.1150 of the Illinois Plumbing Code

2. A pressure water line must be installed ten feet (10') from a building sewer, septic tank, or aerobic tank. If the water line is type K with no joints or sweated joints, and the sewer line is cast iron with hot poured leaded joints and oakum, the distance may be reduced if, in the opinion of the health authority, the ten foot (10') distance separation is not possible. When conditions prevent separation of water and the sewer line and the sewer line must cross over a water line, the above material shall be used and shall extend on each side of the crossing to a distance of not less than ten feet (10') as measured at right angles to the water line.

C. Construction And Installation:

1. Well Drilling:

a. The well driller shall at all times exercise care in preventing contamination of ground water supplies.

b. Water used in the drilling operation shall be from a potable source.

c. Every completed well shall be immediately sealed against entry of contamination, either by installation of the pump and appurtenances as provided herein, or by capping the casing in a watertight manner. An accurate and complete log of the drilling procedure for each well shall be provided by the well contractor to the property owner. The property owner shall provide a copy of this log to the health department for the department to keep with the original well permit.

2. Well Casing: Used or rejected pipe shall not be used.

3. Pumps:

a. In all cases, all openings into the well casing except the vent pipe shall be sealed watertight in a manner approved by the county health department. A vent pipe shall be used, and its end shall be turned down, screened with noncorrosive 24-mesh screen, and shall terminate at least eight inches (8") above the finished grade. Electrical conduit

Not for Records
For Information Only

and venting shall be installed so as to prevent the entrance of toxic and flammable gases into any electrical switch box or structure and as approved by the health department.

b. If a hand pump is used, a pump platform shall be provided. It shall be of concrete, and the space between the well casing and the platform shall be sealed to prevent contamination from entering the well. It shall not be less than four inches (4") thick with wire mesh. The upper surface of the platform shall be above finished grade and shall have a crown of not less than one inch (1") to provide surface drainage.

4. Pressure Tanks:

a. Specifications: A pressure tank with a minimum storage capacity of forty two (42) gallons or equivalent per dwelling unit shall be installed. Storage capacity for buildings other than dwellings shall be approved by the county health department on the basis of the uses of the property. The tank shall be provided with a drain valve. The valve shall be provided with an approved hose bib vacuum breaker to prevent any possibility of back siphonage and contamination of the building water supply. It is recommended that the volume of the pressure tank with an adequate capacity source be approximately seven (7) times the pump capacity in gpm (gallons per minute). (A system with a 6 gpm pump, a 42 gallon tank or equivalent would be recommended; for pump capacities between 6 gpm and 12 gpm, an 82 gallon tank or equivalent would be recommended; for pump capacities between 12 gpm and 17 gpm, a 120 gallon tank or equivalent would be recommended.)

b. Installation: The pressure storage tank may be installed directly over the well casing and attached to the casing by means of a watertight joint, or installed in a protected, easily accessible location not subject to flooding. Tank location and/or method of connecting to the well casing shall be subject to the approval of the county health department.

5. Protection From Freezing: All parts of the water supply system shall be adequately protected from freezing. (Ord., 5-10-1994)

6. Water Service Piping: All water service and water distribution piping outside of the well, above and below ground, shall be 160 psi minimum at seventy three and four-tenths degrees Fahrenheit (73.4°F). Minimum inside diameter shall be at least one inch (1"). All water distribution piping shall be protected from freezing and shall be at least five feet (5') from the ground surface when buried. Any variance from this depth shall be approved by the health department prior to installation. (Ord., 5-10-1994; amd. 2004 Code)

7. Electrical Wiring: Any electrical wiring going underground shall be approved for burying whether or not it goes through a conduit. All electrical wiring shall meet the most recent edition of the national electrical code as published by the National Fire Protection Association [83].

8. Sterilization:

a. Newly constructed wells must be disinfected with a chlorine solution of at least one hundred (100) parts per million by the person or persons who install the well seal.

b. No well will be approved until an analysis of a water sample collected by the well contractor or pump installer after disinfection and pumping shows the water to be safe for drinking. Samples shall be submitted to the laboratory of the Illinois department of public health or any laboratory approved by the agency for water analysis. Bottles for collection of samples may be obtained from the county health department. Coliform and nitrate tests shall be within approved standards and provided to the health department before new homes are occupied.

D. Maintenance And Abandonment: Every water well shall be maintained in a safe condition by the owner. Every abandoned well shall be filled and sealed in accordance with the requirements of section 920.120 of the Illinois water well construction code [84].

E. State Regulations Adopted: The most recent editions of the "Surface Source Water Treatment Code", the "Illinois Water Well Construction Code" and the "Illinois Water Well Pump Installation Code", are hereby adopted by reference. The provisions of those codes shall apply unless more stringent provisions are contained in this code. (Ord., 5-10-1994)

5-2-5: PRIVATE SEWAGE DISPOSAL SYSTEMS:

A. Private System Required; Exceptions: Each single-family residence constructed after the effective date hereof shall have its own sewage disposal system on the property adjacent to the residence and owned by the owner of the residence, except where such single-family residence is connected to and using the public sewer facilities of the county, a municipality, or a licensed public utility or an approved cluster system.

B. Location:

1. The minimum distance between water supply systems and sewage disposal systems, or any parts thereof, shall be as set forth in section 5-2-4 of this chapter.

2. Septic tanks must be not less than ten feet (10') from the lot line and not less than ten feet (10') from the building served.

C. Downspouts, Sumps, Drains And Sewers:

1. Sumps And Pumps:

a. Sumps for collection of basement waste must be constructed of concrete, four inches (4") thick, or plastic, and shall not be permitted less than twenty five feet (25') from a well.

Not for Records For Information Only

b. Where gravity flow is not feasible, a basement sump pump shall be provided for the collection of water draining from the footing drain tile and shall be discharged to an approved outlet. No laundry or floor drain waste lines shall be connected to this pump. (Ord., 5-10-1994)

c. Where gravity flow of laundry waste and floor drains is not possible, it must be connected to a separate sump pump and discharged into a septic tank or sanitary sewer. (Ord., 5-10-1994; amd. 2004 Code)

d. All sump pits shall be adequately covered with an approved cover ~~to~~ prevent debris from falling into the pit and to eliminate a safety hazard.

2. House Sewers And Drains:

a. Minimum size of the house sewer and the house drain shall be four inches (4"); minimum slope shall be one-eighth inch (1/8") per foot; maximum slope shall be one-fourth inch (1/4") per foot.

b. In order to prevent sagging of the pipe, all sewer lines shall be bedded in sand or pea gravel or other material approved by the health department if soil other than sand is present on the site. All sewer lines, where located under driveways, shall be constructed of cast iron or placed in steel sleeves approved by the health department.

c. When solid PVC pipe is used between the house and tank and field, it must be schedule 40 pipe.

3. Grease Traps: Grease traps and catch basins, if used, unless located inside the dwelling and above the floor, must be located at least fifty feet (50') from any well or water pipe and must be constructed as specified by the county health department. Outflow from grease trap or catch basin must be discharged into the sewer leading to the septic tank. (Ord., 5-10-1994)

D. Seepage System:

1. Location And Geology:

a. Seepage systems for disposal of septic tank effluent shall not be used where the depth from the ground surface to the limestone formation is less than fifteen feet (15'). Information supplied by the State Geological Survey, Urbana, Illinois, shall determine depth to the limestone formation. If this condition prevails, the county health department may prescribe an alternate system. This provision shall not apply to lots platted before the effective date hereof.

b. Seepage system shall be at least twenty-five feet (25') from any ditch, stream, or drain. These distances shall be doubled or tripled if lot dimensions allow and soil conditions warrant increased distances.

c. Minimum distance from trench sides, or trench ends, or any part of the septic system to lot lines or easement lines shall be at least ten feet (10'). (Ord., 5-10-1994; amd. 2004 Code)

2. Surface Water Drainage:

a. The lot area proposed to be occupied by a septic tank and tile seepage field shall be free from inundation due to ponding of water in depressions or on flat areas or due to flooding from streams or other drainage channels.

b. Rough and finished grading of seepage field areas shall be so designed and executed with respect to elevation and slope that surface drainage is off the area and away from all nearby wells.

3. Fill: If fill material is to be placed over or used for any part of the seepage field areas or within ten feet (10') thereof, to a depth of more than eighteen inches (18"), it shall be done as follows:

a. Porous material only, approved by the health department, shall be placed over the seepage field area and for a distance of twenty five feet (25') beyond the end of the laterals.

b. Under some circumstances the health department may require that for a distance of ten feet (10') beyond the porous fill, impervious material be placed and compacted in such manner as to prevent leaking at the top of the slope.

c. If the seepage system is to be installed within one year of completion of the filling operation, then the fill shall be placed in layers and compacted in such a manner that the tile lines shall not settle out of the required vertical alignment.

4. Design: Design of the seepage field shall be in accordance with rules and regulations established by the county health department and shall be based on percolation tests and/or soil evaluations, size and use of structure, number of persons served, and such other factors as might influence the functioning of the system. The county health department shall specify percolation test procedure, number of tests to be made and the form in which results are to be reported. Percolation tests, when run, shall be conducted by the health department or, if the department deems necessary, a party approved by the health department.

5. Disturbing Seepage Area Prohibited: After a proposed seepage system has been approved, the area in which it is to be installed shall not be disturbed in any way unless alterations are specified in the permit. The proposed seepage field area shall be protected against all vehicular traffic to prevent compaction of soil. A seepage system should be installed when soil moisture is at a low level so soil moisture will not cause smearing of the side walls of the seepage trench wall when trenches are excavated. Working too wet a soil can adversely affect the proper operation of a seepage system by smearing and compacting the soil.-

E. Design Specifications:

Not for Records
For Information Only

1. Tank Construction: All septic tanks shall have reinforced removable lids and shall have a minimum dimension of eight inches (8").

2. Sewer And Seepage Field Construction:

a. Sewer lines shall be firmly mortared or an approved material applied at all connections with the septic tank or distribution box.

b. All seepage lines shall be fed from a central distribution box or through drop tees or elbows.

c. Distribution boxes, when used, shall be constructed of concrete of good quality or other suitable material with inlet at least two inches (2") above outlets and outlets at least one inch (1") above bottom. The box shall have a removable cover. Baffles shall be provided if necessary to obtain equal flow distribution.

d. Gravel or stone used in the seepage field or sand filter must be washed and clean; maximum cover over gravel is twenty inches (20"); minimum cover over gravel is twelve inches (12").

e. The total bottom area in the seepage trenches shall be determined from soil evaluations and/or percolation tests, according to the procedures set forth in the most recent edition of the Illinois private sewage disposal code unless otherwise noted herein.

f. Seepage system shall be designed and located so that usable reserve space will permit the installation of twice the minimum seepage area required. This area should be indicated on the plat accompanying the permit application. No seepage system shall be approved with its design based on less than a twenty (20) minute percolation rate unless approved by the health department.

g. All fill used in the seepage field area and to backfill the seepage trenches shall consist of finely divided, porous topsoil containing little or no clay, such as black dirt.

3. Seepage Beds: Seepage beds may be used in lieu of seepage trenches, and the health authority may determine under any given conditions which system may be installed. A seepage bed should not be installed in soils that have a percolation rate of one hundred eighty (180) or more (180 minutes per 6 inch fall in water).

4. Sand Filter And Aerobic Systems:

a. One-sixteenth inch (1/16") mesh shall be used in vents for sand filter systems so that insects will not enter and exit the filter and transport bacteria.

~~b. In order to help eliminate phosphates and nitrates from entering streams, sand filter systems and aerobic systems shall have seepage trenches installed as approved by the health department to help absorb the effluent.~~

b. Where a surface discharging system is approved, an effluent receiving trench shall be installed prior to discharge with the following design and sizing requirements:

a. Effluent receiving trenches shall be designed at 3 gallons per square foot of trench based on the daily flow of the system.

b. Effluent receiving trenches shall be installed as shallow as possible and no more than 36 inches below the ground surface and shall have a minimum of 6 inches of cover.

c. Effluent receiving trenches shall be designed with a minimum of 12 inches of gravel and with the distribution line(s) extending throughout the trench.

d. Effluent receiving trenches shall be designed so that the invert of the overflow line is one inch below the invert of the treatment outlet line.

F. Septic Tank Pumping:

1. Pumping Required: When a septic system malfunctions causing septic effluent to rise to the ground surface, the health department may require the homeowner to continually pump the septic tank to prevent the nuisance condition from existing.

2. Disposal Of Septage: Land disposal sites used for disposal of septage from septic tanks, grease traps and aerobic tanks shall be inspected and approved by the health department before the site is used for septage disposal.

G. Maintenance Of System: All sewage disposal systems shall be maintained so as to function properly. An action for violation of this subsection may be brought against the owner, lessee, or a manager of the property wherein the violation occurs.

H. Licensed Contractors Required: All private sewage disposal systems within the county shall be installed with a valid Illinois private sewage disposal system installation contractor's license; and all such systems shall be pumped, cleaned and the contents disposed of by individuals with a valid Illinois private sewage pumping contractor's license; provided, however, that a homeowner may install and/or service a private sewage disposal system which services his own personal single-family residence.

Not for Records For Information Only

I. State Regulations Adopted: The most recent edition of the Illinois private sewage disposal code is hereby adopted by reference. The provisions of that code shall apply unless more stringent provisions are contained in this code. (Ord., 5-10-1994)

5-2-6: INSPECTIONS:

A. The owner or contractor shall give forty eight (48) hours' advance notice to the county health department before any backfilling of trenches and after the septic tank and seepage system have been installed. The same notice shall also apply before final inspection of any well or private water supply, and the trench leading from the pitless adapter to the pressure tank shall be left open.

B. It shall be considered a violation of this chapter for any person to refuse to allow a representative of the county health department to inspect any well, private water supply, or sewage disposal system after written notice from the county health department that it has reason to believe violation exists, and that it requests permission to make an inspection during reasonable hours.

C. It shall be a violation of this chapter for any person, except a representative of the county health department, to remove or allow to be removed a "Notice Of Violation" posted on any property for a violation of this chapter. (Ord., 5-10-1994)

5-2-7: FEES [85] :

A. Required fees are determined by resolution of the Grundy County Board of Health and the Grundy County Board.

5-2-8: VIOLATION; PENALTY:

Any person, firm, or corporation who violates, disobeys, omits, neglects, or refuses to comply with, or refuses to remedy a violation of the provisions of this chapter shall be guilty of a class B misdemeanor and fined not less than one hundred dollars ($100.00) for each offense. Each day upon which such violation continues shall constitute a separate offense. (Ord., 5-10-1994)

THEREFORE, BE IT ORDAINED by the Grundy County Board, Grundy County, Illinois, that the Grundy County Code be amended with the aforementioned changes and additions.

Adopted this 12th day of August 2008, by the Grundy County Board, Grundy County, Illinois.

ATTEST:

Frank E. Halpin, Jr., Chairman Lana J. Phillips, County Clerk

John B. Roth, Jr. M.D., President
Grundy County Board of Health

MOTION: PLACE ON FILE - EXPANSION OF ENTERPRISE ZONE.

It was MOVED by County Board Member Poole and SECONDED by County Board Member Redford that the Expansion of the Ottawa Enterprise Zone - Grand Ridge Wind Project Ordinance be placed on file. On roll call, said MOTION PREVAILED by the following vote: Ayes, County Board Members Gill, Iverson, Joyce, Lutz, McKinney, Naretto, Neushwander, Pfaff, Poole, Redford, Rodosky, Severson, Steele, Almer, Dyer, P. Galloway and Halpin. Total Ayes, 17. Nays, none. Absent, none. County Board Member J. Galloway abstained. MOTION CARRIED.

MOTION: ORDER FOR PETIT JURORS.

It was MOVED by County Board Member Almer and SECONDED by County Board Member Steele that the Order for 3,500 Petit Jurors be placed on file. MOTION CARRIED.

MOTION: APPROVE LIST OF PETIT JURORS.

It was MOVED by County Board Member Almer and SECONDED by County Board Member Lutz that the list of 3,500 Petit Jurors be approved and made a matter of record. MOTION CARRIED. Said list is as follows;

PETER J ABBEDUTO	JOHN A ADAIR	JUSTIN D ADKINS
ZAKARIA M ABDELHADI	CECIL W ADAMS	JORGE A AFANADOR
BACHAR G ABOU AL SEOUD	MARY A ADAMS	RAFAELA R AGUILAR
