

## Adopt a Rider Program

The Grundy Transit System provides public transportation service for  
Residents of all ages throughout Grundy County.

There are members of our community that are unable to get to important resources such as medical appointments, the grocery store, employment, education and many other services.

Help a member of our community meet their needs this Holiday Season and beyond by adopting a rider. Your donation will support students, hard working parents, dialysis patients, senior citizens, individuals with disabilities, family and friends!

To donate to this cause, simply complete the form below:
